

Dear Valued Partner,

By now you're probably creating your first contract, which is why I wanted to share with you some [Guidebooks](#) we've assembled filled with comments by individual associations regarding particular contract documents.

Organized by numeric sequence, these comments highlight issues and innovative features of the documents, as well as provisions and areas within the contracts. The comments in the Guidebook can also help alert coalition members to certain fill-in-the-blank selections or project-specific modifications in a consensus standard agreement or form.
